SUMMARY

Motivated Integrated M.Tech Software Engineering student at VIT-AP with a strong foundation in programming, data science, and analytical problem-solving. Completed the Foundation Level of the IIT Madras BS Degree in Data Science and Applications. Proficient in Python, Java, and SQL, with a passion for software development, data engineering, and artificial intelligence. Eager to contribute, learn, and grow through internship opportunities and real-world projects.

EDUCATION

VIT-AP University

Integrated M.Tech in Software Engineering — Expected Graduation: 2030

IIT Madras

BS Degree in Data Science and Applications — Foundation Level Completed

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Statistics, Computational Thinking

Tools: Git, GitHub, VS Code, Google Colab, Microsoft Excel

CERTIFICATIONS

IIT Madras BS Degree in Data Science and Applications – Foundation Level Certificate

RELEVANT COURSEWORK

Python Programming, Programming in Java, Data Structures, Database Management Systems, Statistics, Mathematics for Data Science.

ACHIEVEMENTS

Successfully completed the Foundation Level of the IIT Madras BS Degree in Data Science and Applications. Actively developing programming and problem-solving skills through continuous coding practice and self-learning.

SOFT SKILLS

Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Continuous Learning, Time Management.
